

**JUDICIAL INFORMATION AND COMMUNICATIONS  
TECHNOLOGY (ICT) COMMITTEE**

**Terms of Reference**

To take and keep under consideration the needs of the judiciary for ICT support and in particular:

- i. to identify what particular support to the judiciary is necessary and to obtain advice on whether ICT solutions may most efficiently provide that support
- ii. to consider the extent to which current ways of working may need to adapt to make most use of ICT solutions and to advise the Council of what changes to current judicial practice may be beneficial;
- iii. to identify from among requests for new ICT support from the judiciary which require expenditure those that ought to be pursued and the relative priority that approved solutions should have; and
- iv. to provide a source of advice to SCS IT staff on
  1. meeting judicial IT needs, including the development and implementation of the SCS ICT strategy; and.
  2. on practical and policy matters relating to the use of IT and other technology in court procedures.

To keep the Council advised on each of the foregoing matters by reporting at each of the Council's meetings.
